## AGREEMENT

**NOW, THEREFORE**, for good and valuable consideration, the Development Agreement is hereby amended as follows:

1. **Project Development Capacities.** Section 8.E. of the Development Agreement is hereby deleted and replaced with the following:

The Developer has reserved with the City, for the benefit of the Property, water service capacity for 94 ERUs within the Property, sewer service capacity for 96 ERUs within the Property, and transportation capacity for 684 peak hour vehicle trips within the Property, as evidenced by capacity reservation certificates issued by the City to the Developer (the “Capacity Reservation Certificates”).

So long as the Project is developed in substantial conformity with the currently-approved Master Site Plan, including a grocery store, a shopping center, and any residential uses developed in conformity with the provisions of Exhibit E attached hereto, the general “Shopping Center” trip generation rate (ITE Land Use Code 820) shall be used to calculate total trips for all buildings and uses developed within the Property, instead of the actual uses proposed for each individual building. Notwithstanding the foregoing, the standard ITE trip generation rate for any restaurant, coffee shop, or residential use developed on the Property shall be used to calculate trips for any such use developed within the Property. The actual number of new net trips shall be calculated consistent with the most current ITE methodology available at the time the Developer applies for permits pursuant to GHMC 19.12.110, with standard pass-by rate deductions applied to the uses developed within the Property. The internal capture rate reduction shall be set at 30% and will be applied to the total trips for the applicable uses developed within the Property. The \$5,071 per-trip impact fee rate established by Ordinance 1401 will apply to the total number of trips, once calculated consistent with this Subsection 8.E.

2. **Residential Uses.** The Development Agreement is hereby amended to add a new Section 8.H. as follows:

In addition to the uses permitted pursuant to this Section and listed in Exhibit E hereto, residential uses shall be permitted in and on the portions of the Property currently zoned PCD-NB under the Code (the “**Residential Use**”).

**Tract**”), subject to compliance with the Development Standards applicable to residential development in said zone and subject to application for and approval of required permits. The general location of the Residential Use Tract is depicted and highlighted for reference in the Preliminary Site Plan attached as Exhibit A-1 to this Amendment. The precise location of the Residential Use Tract shall be determined as provided in GHMC 17.12.050.

Should the Developer elect to establish residential uses or structures in the Project at any time during the Development Period, the following terms and conditions shall apply:

1. The Developer shall propose an updated location and layout for “Building N” and the surrounding uses and parking areas (currently shown on the site plans attached to the Development Agreement), which shall be subject to the City’s administrative review and approval as an amendment to the Project Approvals.
2. No permit shall be issued for construction of any residence on the Residential Use Tract until Phase 1 of the Project, as depicted on the modified Construction Phasing Plan approved by the City on September 25, 2018, is complete.
3. At least ten percent (10%) of any residential units developed on the Residential Use Tract will be affordable to households with incomes at or below seventy percent (70%) of the average median income for Pierce County, as adjusted periodically. In the event that affordable housing is developed on the Property, the Parties agree to jointly utilize a governmental entity, such as the Pierce County Housing Authority, to help oversee the development and ongoing use of any such affordable housing units.

3. **Streetlights**. The Development Agreement is hereby amended to add a new **Section 8.I**, as follows:

H. Developer will replace any City streetlight removed as a result of Project construction with a streetlight meeting the City’s streetlight standards existing on the date of execution of the Settlement Agreement. Harbor Hill will make a one-time cash payment to the City of \$60,000, which the City may use in its discretion to re-lamp, repair, or replace any other streetlights in or near the Property at the City’s sole cost and expense (the “**Streetlight Payment**”). With the exception of the work expressly described in this **Subsection 8.H.**, Developer shall have no further responsibility to install streetlights in or near the Property during its buildout of the Project. Developer will pay the Streetlight Payment at the time of the City’s final issuance of a building permit for the first building to be constructed on the Property pursuant to the Project Approvals (as they may be amended in the future).

4. **Rectangular Rapid Flash Beacons (“RRFBs”).**

A. Exhibit J to the Development Agreement is hereby deleted and replaced with Exhibit J-1 attached hereto.

B. Section 13.C of the Development Agreement is hereby amended to add the following:

In addition to completing the above-described work, Developer will make a one-time cash payment to the City of \$470,000, which the City may use in its discretion to install RRFBs and make ADA improvement in or near the Property, or for other City purposes, at the City’s sole cost and expense (the “**RRFB Payment**”). Developer will make the RRFP Payment at the time of the City’s final issuance of a building permit for the first building to be constructed on the Property pursuant to the Project Approvals. With exception the work expressly described in this Subsection 13.C, Developer shall have no responsibility to install RRFBs in or near the Property during its buildout of the Project.

5. **Reaffirmation of the Development Agreement; Future Cooperation.** The Parties reaffirm and incorporate herein the terms and conditions of the Development Agreement, except as amended or modified in this Amendment. In the event of a conflict between the terms of the Development Agreement and the terms of this Amendment, this Amendment shall control. The Parties agree that the Developer will draft and request, and the City will timely review and process, any amendments or revisions to the Project Approvals that are reasonably necessary to give effect to the terms of the Settlement Agreement or this Amendment. The Parties further agree to cooperate in the implementation of the terms set forth in this Amendment and the Settlement Agreement; provided, however, Sections 24 and 26, which provide for cost reimbursement, defense, and indemnity obligations with respect to the initial Development Agreement, shall not apply to this Amendment or the Settlement Agreement.

6. **Counterparts.** This Amendment may be executed in one or more separate counterparts (including by electronic signature [such as DocuSign], email, scanned .pdf document or facsimile delivery), and all of the counterparts shall constitute one and the same agreement.

The Parties have executed this Amendment and agreed to the terms above on the last date set forth below (the “**Effective Date**”).
